## Infection Control

- No Velcro on seat
- Seam sealing option
- Zipper sealing option
- Waterfall clean out between seat and back cushions
- Metal mesh seat pan
- SSU arm caps are easily cleanable
- For proper cleaning and disinfecting practices, the textile selection needs to be identified. It is vital that following any chemical application a clear water wipe down occur to avoid chemical build up that will lead to deterioration of the textile. Contact Global should information on using a specific disinfectant be required

## On Site Repair and Replacement

- All components are field replaceable including seat, back, armcaps and arm frames
- Arm frame are interchangeable allowing for on-site conversion from steel to wood, open arm frames to/from closed arm frames, and single seating to/from ganged seating (ganged seating only available for some models)
- Armcaps are interchangeable allowing for on-site conversion from SSU armcaps to wood armcaps

## Construction (Overall Frame)

- Metal frame with die-cast zinc connectors and metal-to-metal fasteners
- Arm frames use 14 gauge rectangular tube construction

## Construction (Armcaps)

- SSU (Self-Skinned Urethane) armcaps
- Armcaps are molded around a formed steel insert ensuring a metal to metal connection

## Construction (Seat)

- 14 gauge rectangular tube seat frame
- Welded wire mesh seat deck

## Construction (Back)

- 0.75 in (19 mm) thick molded plywood back, mechanically fastened to back uprights using metal to metal connections

## Construction (Glides)

- Non-marking, black, polypropylene/polyethylene glides

## Upholstery

- Zippered seat cushion
- Seat cushion hooks to underside of seat deck and back rail using proprietary C-clip fastener
- Back cushion hooks to underside of back using proprietary C-clip fastener
