OPTIC

Design | HALCON DESIGN

OPTIC is an expansive collection of tables and storage designed to harmonize beautiful aesthetics with technical excellence and orchestrate an unparalleled hybrid meeting experience. Distinctive and graceful table shapes facilitate immersive meetings, promoting eye-to-eye contact to foster more meaningful interactions between in-person and remote participants. Connectivity has been seamlessly integrated to support the effortless use of leading-edge technologies. Crafted with meticulous attention to detail, our storage solutions offer opportunities to enhance room acoustics and can be tailored to accommodate every need.

Experience more engaging collaboration when furniture and technology are thoughtfully brought together.

Curved table shapes enhance sightlines, allowing in-person and remote participants to enjoy a more equitable hybrid meeting experience.

LEFT | The curvature of the OPTIC crescent table paired with the wall camera's eye level placement ensures all participants, remote and in-person, can see one another.

RIGHT | Fully integrated controls, like this Logitech Tap device, offer rich, intuitive features for every room.

Optic pairs uncompromising modern design
with beautifully integrated technology.

LEFT | Half-ellipse tables balance in-person communication with a video meeting experience. Storage can be fully integrated with meeting tables to maximize available space.

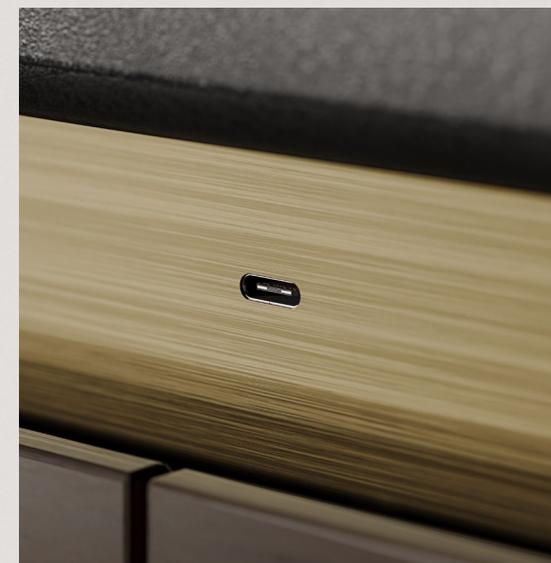

RIGHT | USB-C ports are smartly integrated into the table edge, placing technology conveniently at users' fingertips.

OPTIC sideboards feature perfectly mitered joinery, minimalist round legs, and a beautiful integral finger pull to achieve a timeless and modern aesthetic.

Brushed anodized metals complement a full range of cabinet finishes and surface materials. Thoughtful modules accommodate refrigeration, cutlery, glassware, and more.

OPTIC benches offer gracious seating, extra storage, and smart connectivity in a sleek, modern design.

Perfectly mitered joinery and exquisite materials combine to create precision tailored sideboard storage for every environment.

Drawer and door fronts can be specified in wood veneer, painted hues, or even acoustic panels.

LEFT | Standing height tables provide a unique meeting room experience.

RIGHT | Additional storage is integrated into an acoustic panel wall.
